

Nu Skin Pain Management Products

All Nu Skin products use pharmaceutical concentrations of natural bioactive compounds. Field testing has show amazing results that are being duplicated successfully around the globe.

Firewalker (an Epoch product)

Ethno-Botanicals: Polynesian Ti

Indigenous Use: Leaves used to treat burns and reduce fevers

Field Tested Use: Found to be effective in soothing tired feet at the end of the day. Product is more effective with use of the Galvanic Spa with the Body Shaping head attached on 1 fountain (negative charge)

Found to be effective for reduction of headaches. Product is placed on each temple. Galvanic Spa with Spot Treatment Head attached on 1 fountain (negative charge)

Testimonials: Lily-After a long day of standing in my boots, I can apply the Firewalker and feel near instant relief.

Mandy-I came over with a friend to check out the Galvanic Spa for use on my face. I had a headache at the time, and when the told me it could be used for pain also, I put Firewalker on my temples and use the Galvanic Spa in a circular motion and the pain was gone!

IceDancer (an Epoch product)

Ethno-Botanicals: Wild Mint, Horse Chestnut

Indigenous Use: Native America-Mint used for relief of muscle fatigue
Europe- Horse Chestnut is used to treat varicose and spider veins

Field Tested Use: Found effective in managing sore muscles after exercise. Enhanced absorption when used with the Galvanic Spa on 1 fountain

Found effective in helping reduce the swollen tissue.

Testimonials: Jerry- I mentioned at a demo that my arm was sore. I was then shown how to apply the IceDancer and Flex Crème to

my arm, use the Galvanic Spa with the Body Shaping head attached on my arm for 5 minutes, and my pain in my arm near my elbow that had been aching for days was gone.

Jean- I have suffered with a cyst on my right leg for 3 years and I have been avoiding an operation. The knee is always swollen and in pain. I used the Galvanic Spa with IceDancer and FlexCreme on my knee and the swelling went down in my knee and the pain was gone. The pain stayed gone for 72 hours before I started to feel it come back.

Deena- I have had muscle knot on my right shoulder blade for a year. I spent countless dollars on physical therapy trying to release the muscle and relieve the pain. My friend "ironed" my back with IceDancer and FlexCreme and the muscle for the first time released, and the pain was gone.

FlexCreme (a Pharmanex product)

Active Ingredient: Cetyl Ester complex

Field Tested Use: Used in conjunction with IceDancer and the Galvanic Spa to assist in managing joint and muscle pain

Calming Touch (an Epoch product)

Ethno-Botanicals: Jewelweed, Yarrow

Indigenous Use: Jewelweed-Native Americans used to treat irritations from poison ivy

Field Tested Use: Found effective in helping reduce skin irritations and rashes caused by Eczema, Psoriasis, poison ivy, etc.
